Beauty under the umbrella of science!

In light of the increasing number of non professionals claiming to provide various dermatological and aesthetic skin treatments, here at Akkash Clinic we promise to provide our patients with a different niveau of the latest state of the art skin care services, all from a medical perspective according to the latest international standards. We are proud to announce that for the first time in Jordan, the concept of comprehensive dermatological and skin care services has been launched. At our clinic we are dedicated to bringing our patients the best, most up to date comprehensive dermatological treatments.
